Submission Requirements

Two (2) sets of construction drawings and one (1) sets of storm water calculations are required to be submitted with this application.

It is the applicant's responsibility to make sure that the drawings and calculations submitted are as complete as possible. If changes are required to the drawings and calculations, then each subsequent submission will receive a plan review charge.

### Signature and Certifications

I hereby certify that the owner of record authorizes the proposed work and this application, and I am acting as the agent on owner's behalf.

I agree to conform to all the applicable rules of the City of Mount Vernon, all applicable codes, and provisions stated in this application.

I hereby certify that all land clearing, construction or development involved in the movement of earth shall be in conformance with standard erosion, runoff and sediment control practices to prevent soils from being deposited onto adjacent properties, rights-of-ways, public storm drainage systems, wetlands and/or watercourses.

I agree to obtain the required inspections and no part of the structures/improvements will be used or put into service until after obtaining the final inspection(s).

I agree that authorized inspectors shall have the authority to enter areas covered by this permit at any reasonable hour to enforce the provisions of the code.
