March 10, 2022

Area Residents and Businesses

The weather is now suitable for construction; the sidewalk project for the east side of Sandusky Street will be starting Monday March 14, 2022. Smith Paving & Excavating, Inc. of Norwalk, Ohio will begin construction on this project next week. No parking is permitted on the east side of the street during the construction period. The project will start at West Pleasant Street and proceed north. A portion of the driveways that the sidewalk crosses will be replaced. While this work is underway, and until the driveway concrete has cured parking in an alternate location will be necessary. The contractor will minimize any inconvenience to property and business owners.

The new sidewalk will tie in to the recently installed walkway along Sandusky Street at Franklin Street. Please take precaution to construction personnel and their vehicles as they work on this project, also please use caution when traveling through the area as traffic will be restricted and controlled at times.

If you have any questions please call our office at 740-393-9528.

Sincerely,

A handwritten signature in blue ink that reads "Brian W. Ball".

Brian W. Ball P.E.
City Engineer
